PROFESSIONAL SUMMARY

I build fast and responsive interfaces using React, [Next.js](#) and Tailwind. I focus on clean component architecture, performance and SEO so products scale without breaking. I've shipped production features for a live product. I am actively looking for remote roles where I can contribute and grow.

SKILLS

Language: Javascript

Markup & Styling: HTML, CSS

Frameworks & Libraries: React, [Next.js](#), Tailwind CSS, Bootstrap, Docusaurus

Tools: GitHub, VS Code, Figma,

Other: Responsive UI, API Integration, SEO, Debugging

EXPERIENCE

Frontend Developer Intern - Cocobase

Jan 2026 - Present

- I maintain and improve the Cocobase documentation site, built with Mintlify and Docusaurus
- Refactored layout and component to improve structure and consistency across pages.

Freelance Frontend Developer - Stelcity

March 2026 - April 2026

Built the full e-commerce storefront using Next.js and Tailwind CSS and achieved a 97/100 Lighthouse performance and 100/100 SEO on mobile.

Implemented SEO best practices :semantic HTML, metadata, Open Graph for search visibility from launch.

Structured reusable components so the client can scale without needing a developer for every update.

PROJECTS

Job Tracker - Full stack web app

- Built a full stack job application tracker with Next.js, Supabase Auth and real time CRUD operations.
- Features Kanban pipeline, stats dashboard and per user data isolation via Supabase Row Level Security.

- Tech: Next.js, Tailwind CSS, Supabase, Vercel
- Preview : <https://job-tracker-ow8x.vercel.app>

Phisguard - Anti-Phishing Chrome Extension

- Built a Chrome extension UI that provides real time phishing alerts.
- Integrated frontend with backend detection system for low latency feedback.
- Tech: JavaScript, HTML, CSS, Chrome Extensions API
- Preview: <phis-guard-jade.vercel.app>(demo hosting)

Smart Material - AI Construction Material Selector

- Built the frontend for an AI tool that recommends construction materials based on what a user inputs. Made the output readable for non-technical users.
- Designed the form and result sections to feel simple, user puts in what they need, gets a clear answer back.
- Tech: React, JavaScript, CSS
- Preview: <apwen-frontend-1.onrender.com> (demo hosting)

EDUCATION

B.Sc. Electronic and Computer Engineering (LASU)

2023 - Present

CERTIFICATION

Frontend Development Certification -

TechCrush Academy · 2025
