PROFESSIONAL SUMMARY

I'm a Frontend Developer with experience building responsive, production -ready web applications using React, [Next.js](#) and Tailwind CSS. I have experience in developing features for live products, integrating APIs and optimizing performance and SEO.

SKILLS

Language: Javascript (ES6+)

Markup & Styling: HTML, CSS

Frameworks & Libraries: React, [Next.js](#), Tailwind CSS, Bootstrap, Docusaurus

Tools: GitHub, VS Code, Figma, Vercel

Other: Responsive UI, API Integration, SEO, Debugging

EXPERIENCE

Frontend Developer Intern - Era Connect

July 2026 - Present

- Developed features for the Era Marketplace Admin Dashboard using React and Tailwind CSS
- Built responsive interfaces for seller management and marketplace administration.
- Integrated frontend components with backend APIs.
- Collaborated with developers using Git and GitHub to deliver production-ready features.

Frontend Developer Intern - Cocobase

Jan 2026 - May 2026

- I maintain and improve the Cocobase documentation site, built with Mintlify and Docusaurus
- Refactored layout and component to improve structure and consistency across pages.

Freelance Frontend Developer - Stelcity March 2026 - April 2026

- Built the full e-commerce storefront using Next.js and Tailwind CSS and achieved a 97/100 Lighthouse performance and 100/100 SEO on mobile.
 - Implemented SEO best practices :semantic HTML, metadata, Open Graph for search visibility from launch.
 - Structured reusable components so the client can scale without needing a developer for every update.
 - Live: <https://www.stelcity.com>
-

PROJECTS

Job Tracker - Full stack web app

- Built a full stack job application tracker with Next.js, Supabase Auth and real time

CRUD operations.

- Features Kanban pipeline, stats dashboard and per user data isolation via Supabase Row Level Security.
- Tech: Next.js, Tailwind CSS, Supabase, Vercel
- Preview : <https://job-tracker-ow8x.vercel.app>

Phisguard - Anti-Phishing Chrome Extension

- Built a Chrome extension UI that provides real time phishing alerts.
- Integrated frontend with backend detection system for low latency feedback.
- Tech: JavaScript, HTML, CSS, Chrome Extensions API
- Preview: phis-guard-jade.vercel.app(demo hosting)

Smart Material - AI Construction Material Selector

- Built the frontend for an AI tool that recommends construction materials based on what a user inputs. Made the output readable for non-technical users.
- Designed the form and result sections to feel simple, user puts in what they need, gets a clear answer back.
- Tech: React, JavaScript, CSS
- Preview: apwen-frontend-1.onrender.com (demo hosting)

EDUCATION

B.Sc. Electronic and Computer Engineering (LASU)

2023 - Present

CERTIFICATION

Frontend Development Certification -

TechCrush Academy · 2025
